Ethical Compliance Declaration

Mandatory Student Declaration for Agentic AI Task Planner with Tool Use

OFFICIAL HCLTECH PROGRAMME ETHICAL MANDATE

Agentic AI with tool access can cause irreversible actions. Implement human confirmation before file write/email send actions. Log all tool calls. Ensure execution runtime sandboxing and full operational accountability.

2. Formal Compliance Declarations

I hereby solemnly declare and affirm that the Agentic AI Task Planner with Tool Use project adheres to the following rigorous ethical guidelines:

? Human-in-the-Loop (HITL) Gate for Irreversible Actions: All tools classified as state-modifying (specifically email_draft, file modifications, and non-idempotent api_call operations) are gated by mandatory human confirmation. The system halts execution and requires explicit human operator consent before dispatching.

? 100% Comprehensive Tool Call Logging: Every tool invocation is permanently recorded in a structured, immutable audit log containing task_id, step index, timestamp, tool name, input arguments hash, human approval status, latency, and return status code.

? Sandboxed & Isolated Runtime Execution: The code_exec capability is strictly confined to an isolated execution sandbox preventing unauthorized host filesystem access, privilege escalation, or arbitrary external network connections.

? Data Privacy & Security Safeguards: No proprietary, sensitive, or personal data is transmitted to

unauthorized third-party endpoints. All synthetic traces and evaluation logs comply with academic and industry data protection norms.

? Academic Authenticity & Originality: The implementation code, evaluation notebook, datasets, and project documentation represent my own individual intellectual output adhering to HCLTech's code of academic integrity.

3. Signatures & Affirmation

By signing below, I confirm that the project complies in full with the ethical, safety, and operational standards mandated by HCLTech and the Career Shaper Programme.

Learner / Candidate Signature:

Signature: _____

Name: Luven Sharma Date: _____

Roll No: 2201010077 Place: _____

Mentor / Faculty Endorsement:

Signature: _____

Mentor Name: Shaily Gaur / Coordinator

Status: Approved & Validated
